PROFESSIONAL EXPERIENCE

Morocommerce, Fès

Magento 2 Developer
01/2024 – Present | Fès

- Develop, customize, and maintain Magento 2 modules following Magento best practices and coding standards.
- Integrate and customize **Hyvä Theme** and **Alpine.js** to deliver fast, modern, and user-friendly storefronts.
- Implement advanced frontend features using **Knockout.js**, **RequireJS**, and Magento UI components.
- Optimize application performance through SQL query optimization, cache configuration, and efficient data handling.
- Collaborate closely with designers, backend developers, and project managers to deliver client-specific solutions.
- Debug, refactor, and improve existing codebases to ensure long-term stability and scalability.

Laravel Developer (Internship)

08/2023 – 12/2023 | Fès

- Developed an internal management platform using **Laravel 10** and **Tailwind CSS**.
- Designed and implemented scalable backend architecture following MVC principles.
- Built reusable components and optimized application performance.
- Worked in a collaborative team environment following full-stack development best practices.

Sidi Mohammed Ben Abdellah University, Fès,

Web Developer (Internship)

03/2023 – 04/2023 | Fès

- Designed and developed an HR management application using **PHP** and **MySQL**.
- Automated administrative processes, reducing manual workload and improving efficiency.
- Structured and optimized database schemas to ensure data integrity and performance.
