Profile

Full-stack web developer with 3 years of experience, working on both the backend and frontend of international e-commerce platforms for Carhartt WIP, Anita and Edwin Europe (50,000+ monthly users across Europe). Backend in PHP 8 with Magento 2 and Laravel: REST APIs, SSO and third-party integrations. Frontend with React, Alpine.js and Tailwind CSS. Comfortable across the stack from MySQL and Elasticsearch to Redis, Varnish and Docker, with a track record of measurable speed gains (product pages from 3.2s to 0.8s).

Skills

Backend PHP 8, Laravel, Magento 2 / Adobe Commerce, Java / Spring Boot, C# / .NET, Python, OOP, design patterns

Frontend React, JavaScript (ES6+), Alpine.js, Tailwind CSS, Hyvä Theme, Knockout.js, HTML5 / CSS3, responsive design

APIs & auth REST API design, OAuth2 / JWT, Microsoft Entra ID SSO, RBAC, third-party integrations (Amplience, Adyen)

Data & performance MySQL (query and index tuning), Elasticsearch / OpenSearch, Redis, Varnish, caching strategy

DevOps Docker, Git / GitHub, CI/CD pipelines, Nginx, Linux (Ubuntu), Composer, Xdebug

Practices Agile / Scrum, code review, refactoring legacy code, debugging in production

Experience

Magento 2 Developer (full-stack)

Jan 2024 – Jul 2026

Cartware / Morocommerce · Fès, Morocco

- Built and maintained features end to end on three Magento 2.4.x platforms (Carhartt WIP B2B, Anita, Edwin Europe) serving 50,000+ monthly users.
- Designed the REST API layer for the Carhartt WIP DAM integration (repositories, service contracts, webapi.xml, Amplience CDN), exposing customer, credential and image endpoints to partner systems.
- Integrated Microsoft Entra ID (Azure AD) single sign-on: app registration, JWKS-based JWT validation and callback handling.
- Delivered Hyvä storefronts with Alpine.js and Tailwind CSS: 40% faster page loads, Google PageSpeed consistently above 95.
- Cut product listing load time from 3.2s to 0.8s through Elasticsearch mapping, MySQL query and index tuning, Redis and Varnish caching.
- Built B2B features (tiered pricing, catalogue permissions, inventory sync over REST) and set up Apple Pay on Adyen for Edwin Europe.
- Shipped an admin module for translation management with CSV import and bulk upsert, using UI Components.
- Refactored 50,000+ lines of legacy code and stabilised Docker and CI/CD pipelines, cutting production bugs by 45%.

Laravel Developer (Internship)

Aug – Dec 2023

Cartware / Morocommerce · Fès, Morocco

- Built a full-stack internal management platform with Laravel 10 and Tailwind CSS, used daily by 25+ employees.
- Designed 15+ REST endpoints with proper HTTP semantics, request validation and Eloquent relationships.
- Implemented role-based access control and optimised the underlying queries, halving response times.

Web Developer (Internship)

Mar – Apr 2023

Sidi Mohamed Ben Abdellah University · Fès, Morocco

- Built a PHP / MySQL HR app automating leave requests and payroll tracking, removing 70% of manual HR work.

Certification

Adobe Commerce Developer Professional (AD0-E724)
